DETAILED ACTION

Drawings

1. The drawings were received on 12/13/2007. These drawings are accepted.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 6 of applicant's 9/5/2007 Amendment are patentable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including opening and closing the suction ducts by manipulating valves each having a respective piston rod and a piston, the valves being closed by a force from a mechanical actuator applied by the mechanical actuator physically contacting the respective piston rod, and the valves being opened by an action of compressed air on the piston in each of the valves.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
